New Reading Landscape Body Built to Serve and Endure

Landscapers know that the right equipment makes all the difference in an industry that demands the best. The Reading Landscape Body provides the edge landscapers need to get the job done with standard features including:

- Hoist assembly
- Recessed tail lights and marker lights
- Easy open, heavy duty tailgate
- Full width upper rear doors
- Wide access side door
- Cab guard
- Heavy duty floor
- Corrosion resistant steel side wall construction
- Baked-on powder coat finish

Optional features designed to offer even more usability and function include the REV-PAC storage compartment, under boxes, pull down access step, tie-down rings, deck overlay, and more. Designed to serve the needs of professional landscapers, Reading Landscape Bodies are made to last and backed by a three-year warranty.

Reading Truck Body, Inc., headquartered in Reading, PA, has been a leading manufacturer of service and utility bodies, dump bodies, stake/platform bodies, caps, and pickup storage boxes for more than 50 years. More information about Reading products is available at www.readingbody.com, or by calling (800) 458-2226.

Expect More. Choose Reading.
